

## RESET™

Reinvent yourself with RESET weight-management system, and lose five pounds in five days†

### Health Basics

- Can lose five pounds in five days†
- Can lose two pounds a week for 12 weeks†
- Low-glycemic ingredients providing a source of sustainable energy to help control carbohydrate cravings\*
- In a clinical study, the average inches lost were 1.5 inches
- Works as a scientific alternative to fad diets
- Provides balanced nutrition including everything you need for weight-loss success

*It's no secret that the key to effective weight loss is making positive changes in diet and exercise. However, making those healthy lifestyle changes and improving eating habits can often seem like an insurmountable task. With that in mind, USANA scientists developed The **RESET™** weight-management program to help people jumpstart healthy eating habits and begin to make a clean break from unhealthy, high-glycemic foods.\**

### Five Days to a New You

The 5-Day **RESET** program is a nutritionally balanced program of macronutrients (high-quality protein, good carbohydrates, and healthy fats) and micronutrients (vitamins, minerals, and antioxidants). The program is simple—every day you drink three **Nutriméal™** shakes and eat an Oatmeal Raisin **Nutrition Bar**, a Peanut Butter Crunch **Nutrition Bar**, a serving of fruit, and a serving of vegetables. You should also take the AM and PM **HealthPak™**, drink 64–80 ounces of water, and walk for approximately 20–30 minutes (about 3,000 steps) every day.

The 5-Day **RESET** kit is available in a flavor variety pack—with a mixture of Dutch Chocolate, French Vanilla, and Wild Strawberry **Nutriméal**—that includes everything you need:

- 15 single-serving pouches of **Nutriméal**
- 5 Peanut Butter Crunch **Nutrition Bars**
- 5 Oatmeal Raisin **Nutrition Bars**
- 5 AM/PM **HealthPak** packets

To help you get the most out of **RESET**, the kit also comes with a helpful program guide, a motivational magnet, and an exclusive DVD packed with information and featuring a 30-minute fitness program with world-class athletes Jennifer Azzi and Derek Parra.

### Control the Cravings

Nutritional science has linked high-glycemic foods to the incidence of obesity, insulin resistance, and type 2 diabetes. All of the USANA® Foods in **RESET** are guaranteed to be low glycemic. As the foundation of a nutritious diet, low-glycemic foods release energy slowly and do not cause drastic blood glucose spikes and crashes. Therefore, you don't feel hungry as quickly, so you don't feel an overwhelming need to eat, which may help you lose weight.† In addition, the fiber content of **RESET** helps provide a long-lasting sense of fullness to help reduce hunger levels throughout the day.\*

### Lose the Pounds

The 5-Day **RESET** program is not about starvation. It is a nutritionally balanced, low-calorie system to help you lose the first few pounds and find the motivation to keep working toward your total weight-loss goal.\*

### Find the New You

After you have completed the first five days with the 5-Day **RESET** program, make the new healthy habits part of your lifestyle by choosing the next phase that is right for you.

To help you achieve your ideal weight, Transform every day:

- Replace two meals with **Nutriméal** shakes and eat one low-glycemic meal.
- Eat one USANA bar as a snack and one other low-glycemic snack.
- Follow a moderate exercise program, working up to 10,000 steps.
- Take your **Essentials™** or **HealthPak**.

To help you maintain your ideal weight, Maintain every day:

- Replace one meal with a **Nutriméal** shake and eat two low-glycemic meals.
- Eat one USANA bar as a snack and one other low-glycemic snack.
- Continue a moderate exercise program.
- Take your **Essentials** or **HealthPak**.

### RESET and Your Health

**RESET** provides easily digestible soy, whey, and other proteins daily. Research shows that 25 grams of soy protein a day as part of a diet low in saturated fat and cholesterol may reduce the risk of heart disease. One serving of **Nutriméal** provides over 6 grams of soy protein. Whey protein is an excellent source of amino acids essential for building a healthy body.\*

**RESET** also supplies dietary fiber to help maintain optimal health. Diets high in soluble and insoluble fiber generally are rich in essential nutrients. Fiber is important for maintaining digestive health. When regularly eaten as part of a diet low in saturated fat and cholesterol, soluble fiber has been shown to help support healthy cholesterol levels, provided they are healthy to begin with.†\*
